

Sponsoring Organization: UMass Lowell Center for Public Opinion

Questionnaire Design: UMass Lowell Center for Public Opinion

Fieldwork: Yr

were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights were then post-stratified on past primary election behavior, and age x gender stratification of Democratic Primary voters from the New Hampshire voter file to produce the final weight.

Likely Voter Criterion: Voters are included in the frame after passing a
